Phone: 1-877-EVKEEZA (1-877-385-3392) Monday-Friday, 9 AM-9 PM Eastern time

Website: www.EVKEEZAhcp.com

EVKEEZA delivery and storage considerations

Watch for deliveries: EVKEEZA is shipped in an insulated box with gel packs sufficient to keep its temperature at 2 °C to 8 °C for at least 24 hours from the time it leaves the distributor or specialty pharmacy. Ensure staff is watching for the package.

Inspect and unpack: Deliveries to the office should be immediately inspected for damage, then opened, unpacked, and contents placed into the office's medication refrigerator. Follow the storage and handling instructions in the EVKEEZA Prescribing Information. Promptly report any delivery damage to the distributor or specialty pharmacy.

Rotate stock: When placing EVKEEZA into the medication refrigerator, it is a good idea to inspect current stock, including expiration dates, and to rotate the stock if it is not patient specific. Use stock with the closest expiration date first.

Monitor and protect: To best protect your inventory of EVKEEZA, refrigerators should have temperature monitoring and alarm devices for deviations. Calibration is also a good practice. Because power outages may occur without warning, consider using a backup generator.

Product return information

In the event EVKEEZA is rendered unusable after purchase or receipt, product may be returned to Regeneron and replaced in certain circumstances. Returns are subject to adherence to Regeneron policies and procedures regarding the return of product and the rights of Regeneron, at its sole discretion, to deny replacement when misuse is suspected. **All product should be returned as a condition of replacement.***

PRODUCT RETURN PROCEDURE

1. Contact myRARE® at **1-877-EVKEEZA** (1-877-385-3392) and select Option 4
2. Complete the Return Product Eligibility Certification form in its entirety and return with the following:
 - a. Proof of purchase for units being returned or other documentation as requested
 - b. In the case of broken vial(s), pictures documenting the damage
3. Completed forms and supporting documents may be faxed to **1-615-827-0164** or emailed to **return@regeneron.com**
4. Hold/quarantine the product to be returned and follow instructions in the product retrieval kit
5. Once approved, replacement product typically ships within 1 business day of approval of the request

For returns of product damaged in shipment, please contact your distributor or specialty pharmacy.

For product complaints, please call

1-877-EVKEEZA (1-877-385-3392) Monday–Friday, 9 AM–9 PM Eastern time.

*Broken vial(s) do not have to be returned, but pictures documenting the damage should be submitted. Subject to certain exceptions in accordance with Regeneron policy.
